SUPPLEMENT TO 1926 HARDY PLANT CATALOG

Some rare and interesting Perennials not listed in our 1926 Catalog.

SHIPMENT CAN BE MADE SEPTEMBER, OCTOBER OR SPRING

	Each	Dozen
ACONITUM NAPELLUS (True Monkshood or Hell's Flower), 3-4 feet, blooms July-August. The best known Aconitum. This plant thrives in either sun or shade. The roots are poisonous and should not be planted where the tubers might be mistaken for vegetables. The flowers are of a wonderful dark blue shade45	4.50
ADENOPHORA Liliifolia , a campanula-like border perennial, blue flowers, nodding, on short pedicels, produced freely in midsummer in slender but stiff, erect panicles or loose racemes. Culture same as Campanula30	3.00
AGROSTEMMA HYBRIDA Walkeri , a beautiful hybrid of <i>A. Coronaria</i> . Large heads of deep rosy-red flowers25	2.50
ALYSSUM SAXATILE fl. pl. compacta , (Rock Madwort), exquisite for the rock garden25	2.50
ANCHUSA, Affinis , dwarf, azure blue. Very pretty30	3.00
ANCHUSA, Barrelieri , 2 feet, blue flowers with a white tube and pink or yellow throat, least common30	3.00
CATANANCHE Coerulea (Cupid's Dart), 2 feet. A lovely plant, producing heads of pretty deep lavender-blue flowers on long wiry stems. July and August25	2.50
CENTAUREA Babylonica , attractive yellow flowers, suitable for large borders or between shrubbery, 6-10 feet, tall stout and striking plant25	2.50
CENTAUREA Macrocephala , fine border plant, large thistle-like flowers of a golden yellow color, 3½ feet, blooms July and August25	2.50
CENTRANTHUS Ruber (Red Valeriana), 1-3 feet. A very handsome old garden plant, too much neglected, blooms all summer, flowers deep crimson to pale red25	2.50
CHRYSANTHEMUM MAXIMUM , Mrs. C. Lowthian Bell. This is undoubtedly the largest flowered of all shasta daisies. Flowers sometimes measure 6 inches across with very broad petals of great substance. Pure white, 2½-3 feet high35	3.50
DIANTHUS Caesius (Cheddar Pink). This plant grows from 4-10 inches high, very compact in growth and makes a cushion of glaucous leaves which, in May bring forth the sweet smelling rose colored flowers. Excellent for the rock garden25	2.50
DIANTHUS Denticulatus Hybrids . A very interesting species, called the "Amoor Pink". Grows one foot high and forms one of the finest border plants. Flowers are large and almost cover the foliage25	2.50
DIANTHUS Plumarius Mrs. Sinkins, large, clove-scented flowers, in great abundance25	2.50
DIANTHUS Plumarius Nanus flora plena , dwarf pinks, double mixed25	2.50
DICTAMNUS (Gasplant), Albus40	4.00
ECHINACEA (see Rudbeckia Purpurea).		
GYPSOPHILA, Acutifolia (Pink Baby's Breath). Very pretty perennial, resembling the popular white Baby's Breath25	2.50

(OVER)

THE COTTAGE GARDENS—LANSING, MICHIGAN

	Each	Dozen
